- GEN (General; or, requires further classification research)
- QUR (Qur'an, including commentaries)
- HLP (Hadith; Life of the Prophet)
- WPD (Worship; Prayers; Devotional)
- SUF (Sufism)
- SHI (Shi'ism, including refutations thereof)
- DRZ (Druze)

**LIT** (Literary)

- WAH (Wahhabi)
- ZAY (Zaydi)
LNG (Linguistics and Language)
GEN (General; or, requires further classification research)
CMP (Composition)
GRA (Grammar)
LEX (Lexicons and lexicography)
RHE (Rhetoric)

SCI (The Sciences)
APP (Applied)
MTH (Mathematics)
NAT (Natural)
SOC (Social, including History, etc.)

PHI (Philosophy; no subdivisions; includes Logic)

OCC (Occultism)
GEN (General)
MAG (Magic)
DRM (Dreams)

MSC (Miscellany)

CAL (Calligraphy)
EDU (Education)
ENC (Encyclopedic)
MUS (Music)

In addition, five Christian (CHR) and two Samaritan (SAM) manuscripts are part of the collection, and are not included under Miscellany. There is also a limited number of documents (three) for which no categorization has, as yet, been made.

Another three manuscripts which are in Turkish were inadvertently assigned numbers within the Arabic collection when the original shelf listings were compiled; these are not categorized, but are merely listed as manuscripts in the Turkish language with no further identification or categorization.

Seven manuscripts referred to in the original shelf list and card catalogue are not to be found in the collection and are, as of this date, considered lost.

* * * *

Each manuscript is given a listing in the main body of this report as follows:

Firstly, the manuscript number is given; this corresponds to
the order of the manuscripts as found on the shelves, which is haphazard.

Secondly, the primary and secondary subject area categories are listed in their abbreviated forms.

Thirdly, if a date appears in the manuscript, it is given. Most often this date is that given by the scribe upon completion of the manuscript; occasionally it denotes the date at which the manuscript was obtained by the owner.

Fourthly, the title is listed; parentheses indicate that the title is not given in the manuscript itself, but has otherwise been identified. If the title is not known, this is indicated; it is anticipated that as work continues on the collection, some of these "unknowns" will have their names supplied. In addition, note is made at this point if the manuscript is defective in some manner (incomplete, fragmentary, acephalous, etc.).

Finally, the author of the manuscript is given; parentheses indicate that the full name, or part of the author's name, does not actually appear in the manuscript. As with the title, "unknown" may indicate that the information in question may be supplied as work on the manuscripts progresses.

The transliteration system used is largely self-explanatory to those already familiar with modern practice. A more fully comprehensive catalogue of this collection, currently in preparation, will include not only the transliterated titles and authors of the manuscripts in question, but also will give this information in the original Arabic.

* There are a number of fragments which have yet to be integrated into the collection proper; in addition, some illuminated texts, which were never enumerated when the original shelf lists were made, will need to be added to this number.

** It is anticipated that there will be minor changes in the totals as difficult manuscripts are reassigned and as unassigned ones are classified out of the "Undefined" category.
